## Save your breath to blow the Tour de España ten candles!

The Tour de España has chosen to celebrate its anniversary on the soil of Andalusia where it was born then year ago. Already!

Checks and Scrutineering will take place in Jerez. After having left the city hosting one of the most prestigious Horse Schools of the world, the competitors will successively stop in Marbella, Granada -including the visit of incomparable Alhambra, to finish in Málaga. The timed stages programme, which includes the circuits of Jerez, Ascari-Ronda & Guadix, is completed by twelve hill climbs.

### On the sporting side,

always ruled by the International Sporting Code, the Tour de España is under the Automobile Federation of Andalusia (FAA) and of the Royal Automobile Federation of Spain (RACE). There are two possibilities to enter in the event: either in the Competition or Regularity sections. The eligible models are Touring, Grand Touring and Sports cars built between 1946 & 1975.

### On the leisure side,

**On the leisure side**, less "tough" than big brother Tour Auto Lissac, the Tour de España remains the end-of-the season classic event where tourism remains a must: first class hotels, private visit of a monument and the mild weather that we can expect from this part of Europe by the end of end year.

## PROVISIONAL ROGRAMME
